

# **Math Workshop in a Virtual Setting**

**Presented by Katelyn Devine,  
VACMS Region 1 Representative  
Math Coach, NBCT, Henrico County Public Schools**

In this session, participants will experience the structure of station learning in math workshop in a virtual setting. Different ideas for meaningful stations and station structures will be provided. Participants will walk away with an understanding of what structures and procedures are needed for effective implementation of a virtual math workshop and ideas for incorporating guided math during station time. This session will focus on rich mathematical discourse, collaboration, and critical thinking and further provide ideas for coaching teachers in this work.
